Insta 360 Pro, 360 Pro 2		

The Housing is made of 2 aluminum blocks, with double sealing o-rings to have the maximum sealing, and allow use up to a depth of -150m.

To have the maximum yield of the different cameras, 6 plexiglass microdomes were applied which derive from the portholes for DSLR and mirrorless housings.

The closing system takes place via 4 stainless steel hinges.

Externally there are also, 1 Mechanical button with double o-rings, and 1 small plexiglass window that displays the internal display of the Insta360 PRO 2.

On the top part of the housing there are 12 M6 threaded holes, 2 zincs for protect the housing from corrosion and galvanic currents, also 2 M14x1 caps, these are predispositions to be able to install different accessories: Vacuum System , surface video output, hydrophone, other ...

At the bottom of the housing there are 10 threaded holes M6, there are also 2 M14X1 caps, a Fischer panel connector that allows connection via antenna cable At the Leo3Smart housing. That will allow by the app Insta360 PRO, the display of the cameras and allows access to the modification of the parameters.

The series of M6 threaded holes on the base of the housing, allow the fixing of different accessories, eg. Tripod, Moby, Polecam etc ...

Inside the housing there are an antenna to amplify the Wi-Fi signal, for the control and vision of the Insta360Pro 2 through the smartphone, 1 additional battery that serves to power the Insta360 PRO 2, 1 fixing system that takes place via 1 Slide and 1 lock knob.

Included in the price a battery charger and the 12.8V and 3.3 ah additional battery, which serves to provide additional power supply of about 1 hour and 30 minutes to the Insta360 PRO 2 (in addition to its internal battery).

The Sirio a Lighting System includes 4 Revolution 21000 Underwater Illuminators that covers the horizon with a total of 84000 Lumen includes Protective Covers, Clamps, Floating arm and chargers.

Commands:

The new Sphera 360 housing as described above, has only one mechanical command to manage the turn on and off, via the same button you can start video recording or take pictures.

The command management takes place by Wi-Fi connections, the Sphera 360 it's connected to the smartphone housing (Leo3 Smart) via a standard connection cable has a length of 2.5 m

The Insta360 PRO 2 is controlled by its original app, it will be possible underwater select photo or video, check the frame and lighting, change all the various parameters that the app allows, all by looking at the screen of one Smartphone.

General features:

- "Very high quality and complete management of the Insta360 PRO 2", the new Sphera 360 is the first Housing in the world, with remote control by smartphone.
- "Robustness", made from 2 blocks of anticorodal aluminum and double sealing o-rings that guarantee operation up to -150m and life warranty* Easydive.
- "Technology", Sphera 360 is the result of over 20 years of experience in electronic control in underwater housings.
- "Power", the new Sphera 360 is equipped with a battery pack that power the Insta360Pro 2.
- "Safety", installed Vacuum System
- Robustness: the first housing guaranteed up to -150 m thanks to the double o-rings closing
- Manageable: thanks to its volume in water it is practically neutral.
